TITLES

Activation of Cancer Cell Proteases and Cytotoxicity by EGF and PDGF Growth Factors. Di Stefano JF, Kirchner M, Dagenhardt K, Hagag N. 300(1): 9–15.

Aggressive Non-Hodgkin's Lymphomas in AIDS: The University of Colorado Experience. Lamb R, Gonzalez R, Myers A, Bunn P Jr, Robinson W. 300(6): 345–349.

Amino Acids in Sickle Cell Anemia. Enwonwu CO, Xu X-X, Turner E. 300(6): 366–371.

Atrial Natriuretic factor as a Vasodilator Agent in Hypertensive Patients. Pedrinelli R, Spessot M, Panarace G, Taddei S, Favilla S, Salvetti A. 300(2): 78–82.

Bone Mineral Density in Spontaneous Hypertension: Differential Effects of Dietary Calcium and Sodium. Metz JA, Karanja N, Young EW, Morris CD, McCarron DA. 300(4):225–230.

Chronic Therapy of Congestive Heart Failure with Benazepril HCl, a New Angiotensin Converting Enzyme Inhibitor. Mirvis DM, Insel J, Boland MJ, Cinquegrani MP, Ghali JK, Rubin SA, Shanes J, DeSilva J, Whalen JJ. 300(6): 354–360.

Cimetidine Suppresses Chemically Induced Experimental Hepatic Porphyria. Marcus DL, Nadel H, Lew G, Freedman ML. 300(4):214–217.

Clinical and Manometric Aspects of Diffuse Esophageal Spasm in a Cohort of Subjects Evaluated for Dysphagia and/or Chest Pain. Bassotti G, Pelli MA, Morelli A. 300(3):148–151.

Commentary: Oxygen-Derived Free Radicals and Duodenal Ulcer Disease. Richter JE. 300(1):7–8.

Decision Making at the Bedside: Lessons for Clinical Policy Development. Smith WR. 300(3):181–184.

Desmopressin-Induced Improvement in Bleeding Times in Chronic Renal Failure Patients Correlates with Platelet Serotonin Uptake and ATP Release. Soslau G, Schwartz AB, Putatunda B, Conroy JD, Parker J, Abel RF, Brodsky I. 300(6):372–379.

Dimethylthiourea Reverses Sepsis-Induced Pulmonary Hypertension in Piglets. Shook LA, Pauly TH, Horstman SJ, Marple SL, Gillespie MN. 300(1):29–32.

Effect of Diabetes Mellitus on Thyrotropin Release from Isolated Rat Thyrotrophs. Chamras H, Hershman JM. 300(1):16–21.

Effects of Calcium Channel Blockade on Calcium Homeostasis in Mild to Moderate Essential Hypertension. Townsend R, Dipette DJ, Evans RR, Davis WR, Green A, Graham GA, Wallace JM, Holland OB. 300(3):133–137.

Effects of Hyperglycemia and Mannitol Infusions on Renal Hemodynamics in Normal Subjects. Walczyk MH, Pulliam J, Bennett W. 300(4):218–224.

Entering the Quality Assurance Decade. Golden WE. 300(3):178–180.

Epidemiology of Lyme Disease in Virginia. Heimberger T, Jenkins S, Russell H, Duma R. 300(5):283–287.

Factor VIII:C Relationships to Selected Lipids, Age, and Gender in Healthy Adults. Corsaut MJ, Bierma TJ, Kasa RM. 300(2):83–87.

Federal Involvement in Technology Assessment: A Primer. Pugh JA. 300(3):185–188.

Hyperosmolar States. Star RA. 300(6): 402–412.

Hypersensitivity Pneumonitis. Pitcher WD. 300(4):251–266.

Indomethacin Increases Plasma Growth Hormone Levels in Man. Schmitt JK. 300(3):144–147.

Interaction of Chloramphenicol and Metabolites with Colony Stimulating Factors: Possible Role in Chloramphenicol-Induced Bone Marrow Injury. Jimenez JJ, Jimenez JG, Daghistani D, Yunis AA. 300(6):350–353.

Intravenous Bicarbonate and Sodium Chloride Both Prolong Endurance During Intense Cycle Ergometer Exercise. Mitchell TH, Abraham G, Wing S, Magder SA, Cosio MG, Deschamps A, Marliss EB. 300(2):88–97.

Measurement of Plasma Active Renin by Solid Phase Radioimmunoassay Using Monoclonal Antibodies. Shionoiri H, Takasaki I, Ishikawa Y, Minamisawa K, Sugimoto K-I, Hirawa N, Ueda S-I, Gotoh E. 300(3):138–143.

Medical Considerations in the Evaluation of the Obstructed Renal Artery. Heinrich WL. 300(1):53–58.

Methotrexate in Sarcoidosis. Toews GB, Lynch JP III. 300(1):33–36.

Mithramycin Selectively Inhibits the Transcriptional Activity of a Transfected Human c-myc Gene. Ray R, Thomas S, Miller DM. 300(4):203–208.

Molecular Biology in Cardiology: Recent Developments and Opportunities for Clinical Applications. Williams RS. 300(5):304–310.

Octreotide: A Long-Acting Somatostatin Analog. Brown NJ. 300(4):267–273.

Oncogenes, Malignant Transformation, and Modern Medicine. Miller DM, Blume S, Borst M, Gee J, Polansky D, Ray R, Rodu B, Shrestha K, Snyder R, Thomas S, Tran-Peterson R. 300(1):59–69.

Oxygen-derived Free Radicals and the Prevention of Duodenal Ulcer Relapse: A New Approach. Salim AS. 300(1):1–6.

Plasma Prohormone Atrial Natriuretic Peptides 1–98 and 31–67 Increase with Supraventricular and Ventricular Arrhythmias. Ngo L, Bissett JK, Winters CJ, Vesely DL. 300(2): 71–77.

Polyethylene Glycol-Conjugated Superoxide Dismutase in Unilateral Lung Injury Due to Re-Expansion (Re-Oxygenation). Jackson RM, Veal CF, Beckman JS, Brannen AL. 300(1): 22–28.

Practice Standards: Implications for the Internist. Boisaubin EV. 300(3):173–177.

Primary Hyperaldosteronism Levi M. 300(3):189–202.

Production of Transgenic Mice and Application to Immunology and Autoimmunity. Mountz JD, Zhou T, Johnson L. 300(5):322–329.

Prostaglandins and Gastric Ulcers: From Seminal Vesicle to Misoprostal (Cytotec). Feldman M. 300(2):116–132.

Pulmonary Disease in AIDS Patients. Weissler JC, Mootz AR. 300(5):330–343.

Reliability of Cell Counts and Protein Determinations in Serial Bronchoalveolar Lavage Procedures Performed on Healthy Volunteers. Banks DE, Morgan JE, Deshazo RD, Weissman D, Rodriguez FH Jr, Barkman HW Jr, Salvaggio JE. 300(5):275–282.

Serum Aldolase Isozyme Levels in Patients with Cerebrovascular Diseases. Asaka M, Kimura T, Nishikawa S, Saitoh M, Miyazaki T, Takatori T, Alpert E. 300(5):291–295.

Severe Hypertriglyceridemia in Diabetic Ketosis. Fulop M, Eder H. 300(6): 361–365.

A Simplified Technique for the Production of Heart Failure in the Dog by Rapid Ventricular Pacing. Dibner-Dunlap ME, Thames MD. 300(5):288–290.

Southern Blood Club Symposium: An Update on Selected Aspects of Hemochromatosis. Edwards CQ, Griffin LM, Kushner JP. 300(4):245–250.

Symposium Introduction: Technology Assessment and Guideline Development: Concerns and Opportunities for Academic General Internists. Matchar DB. 300(3):171–172.

Tumor Necrosis Factor Primes Neutrophils by Shortening the Lag Period of the Respiratory Burst. Humbert JR, Winsor EL. 300(4):209–213.

Case Reports

Alpha-Hydroxylase Deficiency Masquerading as Primary Hyperaldosteronism. Cottrell DA, Bello FA, Falko JM. 300(6):380–382.

Autoimmune Neutropenia with Anti-neutrophil Autoantibody Associated with Sjögren's Syndrome. Yamato E, Fijioka Y, Masugi F, Nakamaru M, Tahara Y, Kurata Y, Ogihara T. 300(2):102–103.

Corporectomy for Intractable Sickle-Associated Priapism. Yang Y-M, Donnell CA, Farrer JH, Mankad VN. 300(4):231–233.

Disseminated Intravascular Coagulation Due to Intravenous Administration of Hetastarch. Chang JC, Gross HM, Jang NS. 300(5):301–303.

Histoplasmosis as a Cause of Pleural Effusion in the Acquired Immunodeficiency Syndrome. Marshall BC, Cox JK Jr, Carroll, KC, Morrison RE. 300(2): 98–101.

Iodine-Induced Subacute Thyroiditis with Thyrotoxicosis Presenting as Fever of Unknown Origin. Candrina R, Giustina G. 300(1):37–40.

Kaposi's Sarcoma Involvement of the Bone Marrow. Bordelon TR, Burton GV, Grafton WD, Mills GM. 300(6):383–384.

Possible Triggering of Paroxysmal Atrial Fibrillation in Normal Hearts by Psychological Stressors: A Report of Two Cases. Houghton JL, Devlin CW, Besson WT III, Crawford W, Fincher R-ME, Flowers NC, Frank MJ. 300(4):234–236.

Raynaud's Phenomenon as a Presenting Sign of Metastatic Melanoma. Borenstein A, Seidman DS, Ben-Ari GY. 300(1):41–42.

Rheumatoid Arthritis and Hypercoagulable State. Smith RE, Theisen AL. 300(1):43–44.

Schizophrenia and Fatal Self-Induced Water Intoxication. Kushnir M, Schattner A, Ezri T, Konichezky S. 300(6):385–387.

Use of Intrapleural Streptokinase in the Treatment of Thoracic Empyema. Willsie-Ediger SK, Salzman G, Reisz G, Foreman MG. 300(5):296–300.

Reviews

An Assault on Old Friends: Thiazide Diuretics Under Seige. Thompson WG. 300(3):152–158.
